Ergonomics in Your Work Place Proposed Legislation and Safety Programs

Friday, November 26, 2004
8:15 a.m. to 4:15 p.m. (Location to be announced)

Ergonomics is a field of knowledge about human capabilities and the interaction between people and work. This knowledge is used to make jobs easier, safer, more comfortable and performed with less error. With appropriate ergonomic applications, you can increase quality and production and decrease injuries.

In this workshop you will have the opportunity to learn about the new proposed regulation and how to deal with it in a cost effective manner. Lunch is included in the workshop fee.

Learning Objectives:

At the end of the workshop, participants will be able to:

- Explore how the new proposed regulations may affect your business.
- Determine what you can do to comply with the proposed regulations in a cost effective manner.
- Develop skills that will help you better assess and deal with ergonomic problems in your workplace.
- Learn tools that will help you analyze jobs for ergonomic hazards.
- Participants are encouraged to bring problem jobs to the session.

Workshop Facilitator:

Andrew Dolhy, P. Kin Ergonomic Consultant

Andrew Dolhy is an Ergonomist and Professional Kinesiologist who has worked in private industry and for Manitoba Labour, Workplace Safety and Health. He has a BSc. Degree in Hons. Kinesiology – Co-op Program from the University of Waterloo and a certificate in Business Management from Red River College. Andrew is also co-teaching the Occupational Health and Safety course at Red River College and starting January 2004 will be teaching a 40-hour Ergonomics course at Red River College.
