

Message from QNET regarding COVID-19

In light of ongoing developments related to COVID-19 in Manitoba, QNET is taking the following steps.

Each upcoming workshop is being evaluated to determine if it will be postponed or can be delivered online.

If you are registered for an upcoming course, we will notify you by email as soon as details are confirmed. The QNET website (home page and Events pages) will also provide updated information as it is available.

We will continue to assess and monitor the situation moving forward and adjust plans for upcoming programs based on the current conditions and advice. At this time, we have no update on the QNET Conference for Leaders scheduled for May 13, 2020.

Please contact us by email – Catherine (mail@qnet.ca) or Trish (trish@qnet.ca).
